TL	Total Length	TS	Tensile Strength
LL	Locking Length	A	Applications

High Security Seals
Fortified ISO 17712 and C-TPAT-compliant security seals constructed with materials such as steel, airline cables and aluminium to delay tampering. Must be removed with bolt cutters or cable cutters.

Security Seals
Cost-effective, semi-barrier security seals constructed and manufactured of materials that provide limited resistance to intrusion and require lightweight tools for removal.

Indicative Seals
Seals constructed and manufactured of materials that can easily be removed by hand or by using a simple snipping tool or shear. These seals provide highly-visible tamper evidence and easy identification for operation efficiency.

RFID Tag
RFID Tag for quick and easy identification. Ideally designed for cables but applicable to wide range of uses.

Security Boxes, Labels, Pouches and Bags

Highly customizable, our tamper-evident labels, pouches, bags and boxes are suitable for a range of applications such as ATM cassettes, cash-in-transit and confidential documents and handling carton boxes.

Security Boxes, Labels, Tapes, Pouches and Bags

Security Labels

These high-quality adhesive labels reveal tampering/removal, and re-use for security envelopes, cartons and boxes, cash boxes and ATMs and Food and beverage container.

Security Tapes

Security tape is made with highly visible printing on the top surface as a warning to pilferage. The Security Tape provides a clear 'VOID' message on the application when it has been tampered with. Our Security Tape is cold resistant to -40 Degrees, Celsius and is impossible to re-seal once lifted from the surface. Our Security Tape will ensure your packaging meets TSA regulations.

Duty Free Security Bags

Duty Free Tamper Evident bags conform to International Civil Aviation Organisation (ICAO) regulations to enhance airport and duty-free supply chain security.

Cash & Transit Security Bags

Our tamper evident bags have applications including cash deposits/ cash in transits, confidential documents, police/forensic evidence and duty-free shopping bags.

Gold Bullion Security Box

The GB Box can be used to carry a wide range of High Security goods, including Bulk Coin, Cash Handling, Gold Bullion, Jewellery, High Value Retail Goods, Duty Free Goods,

Mega Security Box

The Mega Casino Box is designed for a wide range of applications in the gaming, financial services, retail and police sectors. With easy manual locking, high visibility of tamper attempts and the ability quickly visually inspect the seal and box contents.

Reusable Security Bags

The reusable bag is specifically designed to secure money, confidential documents and sensitive information. When the tamper-evident bag is closed and sealed with the Mega TEBCO DC chamber seal, the security transaction is completed.

LOAD SECURING Manufactured in Partnership with OEM SERV.

Composite Strapping

Strapping by Mega Fortris provides an efficient load securing solution for a wide variety of applications. Strapping is our co-extruded polyester strapping made from high tenacity polyester fibre materials.

Item	Belt Width	Strength	Meter/Coil
GW 40 KF	13 mm	480 daN	1100

	3		40 mm
	4		50 mm

INFLATOR

Venturi Fast Filling System

- Save Compressed Air
- Higher Security against over inflation
- Hands - Free

DESICCANTS

- Clay based
- Starch based

RFID TAG

Features:

- RFID Tag for quick and easy identification.
- Ideally designed for Cables but applicable to wide range of uses.
- Can be used in potentially explosive atmosphere.
- Flexible read / write Range

Applications:

- Used in cable tracking applications.
- Factory automation, automotive and security purpose.
